Head Master.

Dear Mrs. Chalmers,

MARGARET BRYCE SMITH SCHOLARSHIPS.

I am prepared to recommend your boy for election to one of the above-named Scholarships, conditionally upon your writing to me a letter which contains the form of words set out below. I gather from last Friday's interview that you are willing, indeed anxious, that your boy should stay at School until the age of eighteen or so and have the opportunity to compete for University Scholarships.

"My wish is that my boy should have the opportunity to go on
"to a University, subject to his winning later on any
"necessary University Scholarship(s), and I shall do all that
"I can to promote that end by leaving him at School (subject
"to the continuing of his Margaret Bryce Smith Scholarship)
"until he is of age to compete for Scholarships to a University".

It will I think be of use to you to have the enclosed brief particulars of entrance Scholarships to the various Universities which in due time will be available for your boy.

Yours truly,

Mrs. Chalmers,
